Everfresh Packaging reveals new website

November 30, 2020

Everfresh Packaging, a leading flexible packaging supplier of high-quality, innovative products specifically designed for the food industry, has launched a new website.

Visitors to the revamped site will notice an updated layout and modern, fresh design. The new-look, intuitive user interface makes it easier to search for information and navigate inventory. A new feature provides important educational resources and news updates. For ultimate convenience, the site is

also mobile compatible.

“Our new website reflects who we are as a company — a combination of continuous innovation, young spirit and vast experience,” said Patti Brown director of sales & operations at Everfresh. “Our customers’ experience is our top priority and we aim to be responsive to all their packaging needs. That’s why, along with top-quality packaging products from an extensive range of global suppliers, we offer a basket of complementary services that ensure seamless sourcing, including customized supply programs for just-in-time delivery. Now with this new website, our customers can enjoy a convenient, intuitive and comprehensive online experience as well.”

Everfresh Packaging is a leading flexible packaging supplier of high-quality, innovative products specifically designed for the food industry. For over 40 years, we have been offering the finest converted packaging materials, innovative solutions and superior customer service. Leveraging our global network of supply chains, we mitigate the risk of supply shortages or other challenges.

Everfresh carries a broad range of standard stocked sizes from distribution warehouses throughout North America and the UK, serving bakery, produce and grab-and-go markets across the U.S., the U.K. and Europe. Mindful of the environmental impact of packaging, Everfresh has incorporated greener materials into its product range, such as recyclable, compostable and biodegradable products.
