Awe Sum Organics Pacific Northwest organic blueberries are almost here

June 1, 2021

[Awe Sum Organics](#) has partnered with high-quality small and mid-sized family farms in Oregon and Washington to bring customers organic blueberries that have a wonderful complex, sweet and tangy flavor. The company's Awe Sum Organic blueberries are cultivated with the utmost care and strict adherence to organic standards. Its organic blueberries are forecasted to be available for loading in

Portland, OR, starting in late June.

Awe Sum's early varieties begin in late June and the late varieties finish the season in early September. The company's seasonal succession of varieties include Duke, Draper, Top Shelf, Cargo,

Liberty and Aurora.

The Pacific Northwest Region of the United States is known for its optimal climate and fertile soil. This area is perfect for organic blueberry production. Awe Sum Organic blueberries offer exceptional taste and quality and are delicious and nutritious. They are known to be high in antioxidants and phytoflavonoids. They are also high in vitamin C, potassium and are one of the few fruits considered to be a superfood.

“In today’s world, overall health is more important than ever and organic blueberries are more popular than ever. Our organic blueberries are nutritious, juicy and delicious,” said David Posner, president, CEO and founder of Awe Sum Organics.
