Alsum Farms & Produce partners with Consentio

December 23, 2021

[Alsum Farms & Produce](#) of Wisconsin has selected [Consentio](#) as its digital trading platform of choice.

"We have been piloting Consentio for a few weeks now as we believe the platform will help streamline and accelerate our sales order processing, and so improve customer service," said Wendy Dykstra, chief operating officer. "Consentio will link directly to our Microsoft Dynamics ERP system removing the need to manually enter orders and significantly reducing our workload."

Designed for producers, wholesalers, and supermarkets, the Consentio platform simplifies and accelerates sales, reduces costs, improves profits and minimizes food loss by streamlining order flow and simplifying communications, so creating a platform for sustainable growth.

"I am delighted Alsum Farms and Produce has joined our rapidly growing pool of U.S. Consentio customers," said Andy Makeham, head of Consentio USA. "The integration to Microsoft Dynamics opens up a huge marketplace for us."
