Whole Foods launches second just-walk-out store

March 18, 2022

Whole Foods Market's new store in Sherman Oaks, CA, opened this week and is the company's second location to feature just-walk-out technology. The new location's assortment places an emphasis on local products from California.

With just-walk-out shopping, the store provides customers the choice to skip the register for a faster, more convenient shopping experience while offering the same high-quality products and exceptional service from team members as other Whole Foods Market stores.

Additional highlights of the Sherman Oaks store include:

- An array of organic, conventional and Sourced for Good produce, plus offerings from local farms like apples from Cuyama Orchards, sweet potatoes from Valpredo Farms and orchids from Formosa Pacific Orchids.
- Whole Foods Market Juice Bar offering smoothies, fresh juices and acai bowls. The bar will also serve a variety of coffee and espresso drinks, hot or iced.
- A Prepared Foods section with a deli counter, as well as hot and cold food bars. Department offerings include ready-to-eat soups and a range of quick meal solutions, including pre-packaged salads, sandwiches and pizza.

To give back to the Sherman Oaks community, Whole Foods Market will be hosting multiple School Spirit Days in May where 5 percent of proceeds will support local schools, including Dixie Canyon Elementary School, Riverside Drive Charter Elementary School, The Science Academy STEM Magnet and Wonderland Ave.
