Pretty Lady harvesting fall grapes as it readies for IFPA show

October 14, 2022

The [Pretty Lady Vineyards](#) team will be featuring its premium California table grapes at the revamped IFPA Global Produce & Floral Show in Orlando, FL. The Pretty Lady fields are currently being harvested for their fall crop and will be on display at this year's show.

"Last week we began harvest for our Adora black seedless and Autumn Crisp green seedless varieties," said Nick Dulcich, president of Pretty Lady Vineyards. "The berry size is large ranging from 25 to 30 millimeters; the Brix level is up to 19.2, and the fruit is firm, crisp and juicy. We are packing and taking orders."

Other available varieties during the fall harvest include Autumn King (green), Scarlotta (red) and Scarlet Royal (red).

The Pretty Lady team will be serving up its grape bruschetta with basil goat cheese at booth No. 4971.
