Misionero unveils new packaged salad kits

---

November 6, 2022

[Misionero](#), a major grower of organic and conventional leafy greens, showcased two new packaged salad kits at the International Fresh Produce Association's Global Produce & Floral Show. The new products are a Buttery Simple Salad kit and a Miso Caesar Simple Salad kit, which will be available for purchase in 2023.

The Buttery Simple Salad kit includes chopped Butter lettuce, ranch vinaigrette, croissant croutons and shredded parmesan cheese. The Miso Caesar Simple Salad kit includes a blend of Romaine and cabbage, Miso Caesar dressing, garlic ginger wonton strips and shredded parmesan cheese.

Nicole Zapata, marketing director at Misionero, said the company was thrilled to roll them out at the IFPA Global Show. "We believe consumers shouldn't have to give up restaurant-style foods when they choose to eat at home," she said. "With this thought in mind, we developed two high-quality, restaurant-level salad kits to be served as a delicious side dish or topped with a protein for a complete meal."
