**Pear Bureau Northwest shares top Bosc pear recipes**

Bosc pears are a favorite among pear lovers due to their crisp, sweet flavor as well as their versatility in recipes from salads to baking. Kicking off the new year, [Pear Bureau Northwest](#) highlighted the most popular Bosc pear recipes from 2023 in a social media campaign in January entitled, "Begin the Year with Bosc."

The recipes can all be found at [usapears.org/top-bosc-recipes-of-2023](https://usapears.org/top-bosc-recipes-of-2023) as part of USA Pear's online collection of more than 400 recipes.

The recipes highlight the versatility and deliciousness of Bosc pears by unveiling the top Bosc recipes in categories from breakfast through dinner and dessert based on views on [usapears.org](https://usapears.org) and the organization's Pinterest page.

"The web traffic speaks for itself," said Jim Morris, marketing communications manager. "We reviewed our web traffic data and our top Pinterest pins for the 2023, and Bosc clearly stands out."

Popular recipes run the gamut, from an oatmeal recipe for breakfast to a sheet pan recipe for dinner. "And don't forget to leave room for dessert," Morris said. Recipes for tarts and cakes also made the list. From sweet to savory, the top seven dishes include pear tarts, baked chips, sheet pan chicken, oatmeal, salad, upside-down cake and a pear and gorgonzola pizza.

"From enticing snacks to indulgent desserts and wholesome dinners, these recipes showcase the incredible range of possibilities that Bosc pears bring to the table," said Kevin Moffitt, Pear Bureau president and CEO.

"This campaign is not only about celebrating the culinary delights of Bosc pears; it's a collective effort to encourage everyone, from chefs to home cooks, to explore and savor the versatility that Bosc pears offer," said Moffitt.
