**Red Sun Farms achieves Platinum Club status among
Canada's Best Managed Companies**

[Red Sun Farms](#) has been named one of Canada's Best Managed Companies for 12 years in a row, retaining its Platinum Club status.

The company was recognized for its industry-leading performance, its global business practices and its sustained growth. Celebrating over 30 years, Canada's Best Managed Companies program awards excellence in private Canadian-owned companies with revenues of \$50 million or greater. To attain the designation, companies are evaluated on their leadership in the areas of strategy, culture and commitment, capabilities and innovation, governance and financial performance.

“This recognition is a reflection of our commitment to spending time and energy to build and maintain good long-term business partnerships and the cultivation of a successful team,” said Carlos Visconti, Red Sun Farms CEO of U.S. and Canada operations. “In combination with our strong core values of accountability, collaboration, trust and innovation, we are building an environment that makes Red Sun Farms the ideal partnership for long lasting relationships. Our Red Sun Farms family embraces these values in all aspects of our operations. This recognition reaffirms our position as leaders in the produce industry.”

Canada's Best Managed Companies is one of the country's leading business awards programs recognizing innovative and world-class businesses. Every year, hundreds of entrepreneurial companies compete for this designation in a rigorous and independent evaluation process. Applicants are evaluated by an independent panel of judges with representation from program sponsors and special guests.

The 2024 cohort of Best Managed companies share common themes such as having a people-centric culture, targeting effective ESG strategies and accelerating operational digitization.

“Over the past year, companies such as Red Sun Farms have continually adapted and successfully responded to challenges, seized new opportunities, and leveraged industry leading competencies to maximize their investments and drive sustainable growth,” said Derrick Dempster, partner of Deloitte Private and co-leader of Canada's Best Managed Companies program. “By demonstrating an increased focus on environmental, social, and governance themes, these winners have set the standard of excellence for Canada's business ecosystem.”
