Chrysal Transport Stickers: The easy solution for long-lasting flower freshness during transport

October 2, 2024

One of the most significant challenges for flower growers is keeping flowers fresh during long, dry transport periods. Addressing this critical issue, [Chrysal](#) launched Chrysal Transport Stickers, a cutting-edge post-harvest solution designed to easily maintain the quality of cut flowers during transport.

Chrysal Transport Stickers are a ready-to-use, adhesive product that offers an effective solution for preserving the freshness of cut flowers during transportation. These stickers are specifically engineered to release its effective ingredients, safeguarding the flowers' quality in transit, when exposed to humidity levels exceeding 60 percent, a common problem in transporting flowers dry in boxes. Available in Colombia as of summer 2024.

Key Features and Benefits:

- **Maintains Flower Quality:** The innovative design of Chrysal Transport Stickers helps maintain flower quality by gradually releasing active ingredients, which prevent deterioration during transport.
- **Easy Application:** These stickers are simple to use and can be easily attached to the inside of flower boxes, making them a convenient choice for growers, bouquetmakers and transporters.
- **Reduces Waste and Extends Vase Life:** By preserving the freshness of flowers, Chrysal Transport Stickers significantly reduce flower waste and prolong vase life, allowing for an extended distribution and sales period.
- **Compact and Effective Design:** Made from recyclable LDPE, each sticker measures 2.5 x 5.0 cm (1 x 2 inches). Its compact size enables minimal inventory space whilst discreetly and effectively protecting cut flowers.
- **Flexible and Adjustable:** The stickers are supplied in a resealable protective storage bag and offer easily adjustable dosing depending on the size of the flower box, ensuring optimal results.
- **Synergy with Chrysal FreshLiner:** For comprehensive flower care, our solution can be seamlessly integrated with Chrysal FreshLiner, enhancing the overall condition and freshness of flowers throughout the supply chain.
