Brighter Bites expands ways to support families in need

[Brighter Bites](#), a national nonprofit that delivers fresh fruits and vegetables directly into families' hands, launched new items on its [online storefront](#).

"We are happy to offer this selection of branded items to our supporters," said Lindsay Jenkins, director of development at Brighter Bites. "We think it is such a fun way to raise awareness of our mission wherever you are!"

Brighter Bites opened the online storefront in hopes of further spreading its mission to bring fresh produce and nutrition education to families in need. All of the proceeds from the store go directly toward helping to create communities of health through fresh food with the goal of changing behavior among children and their families to achieve long-term health.

"With the holidays around the corner, now is the perfect time to get your hands on some Brighter Bites gear," said Jenkins. "From aprons and hats to shirts, hoodies and more, we have something for everyone to wear and show that they are a part of a movement encouraging healthier habits among all."
