Ag tech presentations and reception set to showcase innovations at Organic Grower Summit

October 30, 2024

A special ag tech presentation showcase at the [Organic Grower Summit 2024](#) will feature leading ag tech innovators dedicated to transforming the future of organic agriculture. The presentation will be held at the Hyatt Regency Monterey Hotel & Spa's adjoining parking lot on Wednesday, Dec. 4, from 3 to 4 p.m., offering attendees a unique opportunity to explore the latest advancements in agricultural technology. [Securing a pass to OGS](#) provides full access to these exclusive presentations and reception.

The event will highlight presentations from Farm-ng, Titan Tire, Montag Manufacturing, Strauss, Mahindra, Zimeno Inc. DBA Monarch Tractor, Eco2mix and more. These industry leaders are pioneering advancements across a spectrum of technologies that support organic growers, with solutions addressing efficiency, sustainability and productivity in organic farming.

"Technology is essential to advancing organic farming practices, and we're excited to provide a platform for leaders in ag innovation to connect with growers," said Matt Jungmann, national events director for Farm Progress. "This year's ag tech presentations at OGS offer a firsthand look at new tools and technologies that can help drive sustainable and effective practices across the industry."

Following this showcase, attendees are invited to join the Ag Tech Opening Reception from 4 to 6 p.m., sponsored by Strauss. This networking event provides a collaborative setting where attendees can connect directly with technology providers while enjoying light refreshments.

The Organic Grower Summit was designed to provide essential resources and information to the organic sector; it will address both the challenges and the potential of organic farming. From ag tech to sustainable practices, the event is set to support the evolving needs of organic growers, suppliers and retailers.

Special grower pricing is available for Western Growers Association and California Certified Organic Farmers members. Reach out to their membership teams for a registration code.
